

DAWSON-WAM Ltd is a Civil Engineering and Piling Contractor carrying out contract works which include Marine & River engineering, Design & Build projects, piling operations, pipelines, road and rail works across the United Kingdom, Republic of Ireland and the Channel Islands.

We are committed to supporting Government aims to deliver Net Carbon Zero, leading the drive towards reducing carbon, sharing best practice & encouraging others along the way. As a Principal Contractor we continue to drive efficiency & contribute to this ambition, actively minimising energy use & reducing our carbon footprint, aligning with Client's objectives & industry focus for zero carbon.

In support for carbon reduction embodied carbon & relevant data is recorded through our ISO Integrated Management System (IMS) and PAS 2080 Carbon Management System. Construction Environmental Management Plans (CEMP) developed for each specific project which includes company & project specific Carbon Reduction Plans (CRP). We will contribute towards overall carbon reduction through:

- Renewable / Alternative Fuel Sources already established including biomass & heat exchange
- Continued investment in modern plant, equipment & vehicles
- Drive towards Zero Emission Vehicles
- Promoting low carbon output materials
- Reduction in business travel / mileage
- Fleet operations, fuel efficiency & emissions in line with FORS Silver requirements
- Carbon offset including company tree planting scheme started over 30 years ago
- Modern Methods of Construction / Whole Life Reductions
- Championing CEEQUAL including assessor
- Continued digital transformation through use of APP based systems
- Green Travel Plans
- Utilising Just in Time Storage Facilities
- Retrofitting Efficiency
- Early Contractor Involvement (ECI) offers reduced carbon solutions
- Carbon Calculators monitor total tonnes of carbon fossil output

Carbon reduction remains one of our strengths, best demonstrated by our CEF Construction Environmental & Sustainability Award in Oct 2021.
